AMENDMENT

Hon. Commissioner of Patents and Trademarks
Washington, DC 20231

Sir:

Responsive to the Office Action dated November 30, 2000, please enter the
following amendment and consider the following remarks.

IN THE CLAIMS:

a1 sub B
16. (Amended) Microspheres [containing an agent wherein said microspheres are]
prepared by the process of claim 13.

REMARKS

Applicants acknowledge that claims 1-15 have been allowed. Claim 16 has been
amended to address the Examiner's comments on page 2 of the Office Action.

Claims 17-24 have been rejected under 35 U.S.C. §103(a) as allegedly
unpatentable over Tice et al. (4,389,330). Applicants respectfully traverse this rejection.

The invention of claims 17-24 is directed to microspheres having an average
particle size distribution that maximizes uptake of the microspheres by both M cells and
non-M cells, either in the villous epithelium or in the Peyer's patches follicle associated
epithelium so that upon encapsulating antigens or other chemotherapeutic agents within
these microspheres, large doses of antigen will not be required to achieve sufficient local
